

Customizations and Integrations

Describe how your product handles Customizations and Integrations.

The following items are considered required specifications. These items should be native to the system reflected in your response to the RFP at Cost Item P.1.1. Please indicate the procedure and ability of the platform to:

- Integrate third-party tools and plugins with the IMS LTI (Learning Tools Interoperability) 1.0 and 1.1 specifications
- Import SCORM-compliant content that integrates with the grade book
- Provide open and secure APIs to enable integration with other campus applications and services. If so, please indicate any limits on the number of 3rd party connections or number of APIs that the system can support.
- Provide token-based authentication enabling applications to act on a user's behalf.
- Integrate with Ellucian Banner 8.x and 9.x/XE SIS (Student Information System) for grade submission, course data, and enrollments.

The following items are considered preferred specifications. For each of the following items, describe whether each feature/requirement:

- **Is native to the system reflected in your response to the RFP at Cost Item P.1.1,**
- **Requires additional licenses as reflected in your response to the RFP at Cost Item P.1.3.**

Please indicate the procedure and ability of the platform to:

- Integrate third-party tools and plugins with the IMS LTI (Learning Tools Interoperability) 1.2 specification
- Integrate third-party tools and plugins with the IMS LTI (Learning Tools Interoperability) 2.0 specification
- Provide real-time integration with Banner 8.x and 9.x/XE for course data and enrollments.

- Award digital badges to students that are compatible with standard credentialing platforms, such as Mozilla Open Badges.
- Integrate with the Kaltura video platform beyond an LMS-agnostic LTI integration.
- Integrate with library services and systems, such as virtual reference services and electronic reserves.
