

Registration and E-Commerce

Describe how your product handles Registration and E-Commerce.

The following items are considered required specifications. These items should be native to the system reflected in your response to the RFP at Cost Item P.1.1. Please indicate the procedure and ability of the platform to:

- *No required specifications*

The following items are considered preferred specifications. For each of the following items, describe whether each feature/requirement:

- **Is native to the system reflected in your response to the RFP at Cost Item P.1.1,**
- **Requires additional licenses as reflected in your response to the RFP at Cost Item P.1.3.**

Please indicate the procedure and ability of the platform to:

- Allow users to browse, search, register, and pay online for educational opportunities.
- Provide TouchNet compatible payment systems.
- Provide a customizable certificate that is digitally stored and can be accessed by the learner after course completion.
- Provide a digital learner record that accumulates an individual's educational activity within the ecommerce catalog.
- Provide an e-commerce platform with nested course ecommerce catalogs (e.g. university-wide, program-specific, etc) that can be branded and marketed individually.
- Provide an e-commerce platform with reporting capabilities based on domains that are tied to sub catalogs/nested catalogs.
- Provide an e-commerce platform with the ability to integrate with a federated identity management system

- Provide an e-commerce platform with the ability to create promotional codes for sub catalogs or individual course listings.
- Provide an e-commerce platform with the ability to bulk register students.
- Provide an e-commerce platform with APIs that can be used to create additional customizations and feature sets.
