

## **Quizzing and Assessment specifications**

**Describe how your product handles quizzing and assessment functions.**

**The following items are considered required specifications. These items should be native to the system reflected in your response to the RFP at Cost Item P.1.1. Please indicate the procedure and ability of the platform to:**

- Create quizzes with a variety of question types.
- Allow the creation of graded and ungraded quizzes.
- Allow assessment items to be added and pulled from question banks.
- Provide a way to import and export quizzes and tests using the QTI standard.

**The following items are considered preferred specifications. For each of the following items, describe whether each feature/requirement:**

- **Is native to the system reflected in your response to the RFP at Cost Item P.1.1,**
- **Requires additional licenses as reflected in your response to the RFP at Cost Item P.1.3.**

**Please indicate the procedure and ability of the platform to:**

- Allow assessment tool to provide both general question feedback and specific feedback to each potential answer.
- Provide an item level analysis to instructors for each assessment, including the ability to assess Item Difficulty and Item Discrimination.
- Provide student performance evaluation tools and activity reports; and can automatically triggers alerts/notifications to students based on instructor-defined performance metrics.
- Include plagiarism prevention tool or service that compares student-submitted work with an online database of original work, or integrates with 3<sup>rd</sup> party tools that provide these features.

- Create, distribute, and tally results of surveys.
- Deliver live polls to classrooms, which can be responded to using a mobile device and results can display in real-time.
- Virtually proctor assessments using live proctors or recorded sessions that are later reviewed by proctors.
- Allow IP restrictions to ensure assessment can only be taken in certain locations (e.g. campus lab).
