

Manage Learning Content

Describe how your product handles managed learning content.

The following items are considered required specifications. These items should be native to the system reflected in your response to the RFP at Cost Item P.1.1. Please indicate the procedure and ability of the platform to:

- Provide both WYSIWYG and HTML editors.
- Allow instructors to select specific items within one course that they would like to copy into a different course.
- Display a sequence of disparate types of learning objects, including web pages, quizzes, assignments, and discussions.
- Use Unicode characters from the Basic Multilingual Plane in all course components (i.e. all modern languages)
- Use mathematical symbols and formulas in all course components using LaTeX.

The following items are considered preferred specifications. For each of the following items, describe whether each feature/requirement:

- **Is native to the system reflected in your response to the RFP at Cost Item P.1.1,**
- **Requires additional licenses as reflected in your response to the RFP at Cost Item P.1.3.**

Please indicate the procedure and ability of the platform to:

- Incorporate multimedia, including audio and video, in all elements of LMS, including assessments and exam questions
- Allow users to incorporate external web content into courses as embedded iframes or links that open in new windows.
- Provide a learning object repository containing objects that can be shared across courses and schools.
- Release content based on student performance and characteristics (i.e. conditional

release).

- Create custom navigation and branching within sequences of disparate types of content.
- Use Unicode characters from all planes in all course components (e.g. rare languages, emojis, etc)
- Provide an eportfolio tool, and allow students to submit eportfolio content as a graded assignment.
- Provides gamification features, such as leaderboards, badges, or point systems.
