

# Software License Model and Implementation Plan

Describe your product license model and implementation plan.

The following items are considered preferred specifications. Where applicable, describe whether each feature/requirement:

- Is native to the system reflected in your response to the RFP at Cost Item P.1.1,
- Requires additional licenses as reflected in your response to the RFP at Cost Item P.1.3.

Please include the following:

- Describe the licensing model for your product, annual, perpetual license. Include annual maintenance and support information.
- Describe the Implementation process.
  - Include suggested timeline, milestones/deliverables and resources.
  - Include expected Georgia Tech resources you require.
  - Include a list of expected supplier personnel for implementation by title with hourly rates.
  - Include a list of post implementation supplier support personnel by title with hourly rates.
- Describe data migration process from Georgia Tech's current software to your solution.
  - Include reports available prior to migration, during and post migration.
  - Indicate the source of the reports.
- Describe your software TEST SITE capabilities and indicate whether you would make it available for evaluation purposes. Top scoring suppliers may be asked for TEST SITE access to verify features and functionality.
